I have uploaded the revised (version 5, also attached) Effective Date preamble and reg section. I accepted Dave's edits, kept those comments that apply broadly to the reg and preamble, and left one deleted part in track changes format so that it's clear why I took it out (becomes repetitive with the reorganization). I did not track minor word edits. His reorganization does improve the flow.

I'm back on Tuesday, for any follow up. Have a great weekend!
